Bangalore, Karnataka

PROFILE

I am a Motivated Backend Developer and Frontend Developer with a strong passion for learning and problem-solving. Through internships and projects, have gained hands-on experience and teamwork skills. I am adaptable, proactive, and always eager to explore new technologies. With a positive mindset, I thrive in dynamic environments and aim to grow and contribute.

EXPERIENCE

Java Full Stack Developer Intern

TAP EduTech, Jan 2025 – Aug 2025

- Developed responsive web applications using HTML, CSS, JSP, and JEE.
- Implemented backend features with Java and SQL for efficient database interactions.
- Ensured clean UI, improved user experience, and optimized performance.

PROJECTS

Voice-Assisted Email System — March 2025

- Developed a voice-activated desktop assistant using Python, API's and web technologies.
- Utilized speech recognition and NLP for intuitive voice commands processing.
- Enhanced security with face recognition login system & advanced processing algorithms.

Food Delivery System — Jul 2025

- Developed a Food Delivery System using MVC architecture, ensuring a structured and scalable backend.
- Integrated JEE Servlets (Controller), JSP, HTML, and CSS (View), and JDBC (Database Connectivity) for seamless functionality.
- Focused on optimizing performance and user experience, ensuring smooth and efficient customer service.
